- RGB LEDS light ring for feedback
- High power IR LEDS for night mode
- Microphone
- Stereo Speaker 3W
- Two Programmable buttons
- Standard ¼ inch mount
- 40-120cm from the driver

### Duo camera module spec

- Dual IR camera and low light camera
- RGB LEDS light ring for feedback
- IR LEDS for night mode in Cabin use
- Dual Microphone
- Speaker 3W
- One button
- Adjustable mount

### Cloud solution:

- Web access to all products
- Device Geo-Fencing
- Mapping
- Open API for integration into 3rd party systems
- Device updates and control

### Mobile app:

- Access your devices anywhere
- Step by step installation procedure

### System features:

- Operates in real world light conditions
- Full systems notification through our device portal and mobile app
- The system is configurable for various camera positions, vehicle layouts and custom customer requirements
- Safe as per IEC-62471
- Live driver scoring and coaching with actionable driver feedback

### AI controller:

- Octo Core CPU
- 3 Gb RAM
- 32Gb Flash Storage
- LTE
- GPS
- Bluetooth 5.0
- WIFI
- DSP engine
- USB 3 x 2
- USB 2 x 2
- 2 x CAN bus
- 3 GPIO for device integration
- Gyro sensor
- Accelerometer
- Input voltage 9V to 36V
- External antenna GPS
